NEW PERFECTION

Blue Flame Cookers

THE great feature of our "New" Blue Flame Oil Cooker is in the wick, which is easily adjustable, gives an immediate "blue flame" of intense heat, and *does not smoke or smell.*

They have no equal for all kinds of baking and roasting with a "PERFECTION" oven. Ovens are always to be thoroughly heated before using.

The Cookers are artistic in design and pleasing to the eye.

The chimneys are enamelled in blue, which make them rust proof and easily cleaned.

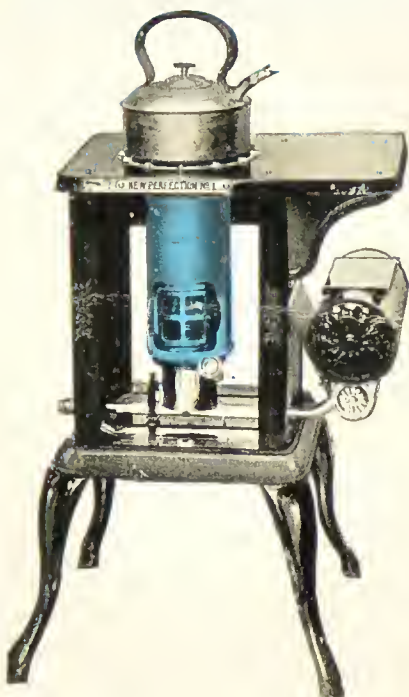

Oil is supplied so as to maintain a uniform flame at all times.

New wicks are supplied already affixed to a carrier ready for use. This renders exceedingly simple what was formerly a trouble. For prices see No. 11 on page 11 (Parts for Cookers).

This stove has more good qualities than any other yet shown.

All Cookers and Ovens are packed in crates (which are included in prices and not returnable), and delivered free to any railway station in the U.K.
